Dear Retailers,

We are excited to share our latest catalogue designed with a consumer-friendly approach. As part of this initiative, wholesale prices are not displayed openly. Instead, each item features a coded line that discreetly embeds the wholesale price for your convenience.

How to Read Pricing for Canadian Retailers:

For example, if you see the following code:

27-POSTAL-819

C02250-U02500 EA

The pricing is located on the second line, indicated by the numbers before the dash. To determine the price, simply omit the "C0" and insert a decimal point. Therefore, the price for the above example is \$22.50 EA.

Here are a couple of additional examples for clarity:

C02250-U02500 EA translates to \$22.50 each

C0850-U0950 ST translates to \$8.50 a set

How to Read Pricing for American Retailers:

For example, if you see the following code:

27-POSTAL-819

The pricing is located on the second line, indicated by the numbers after the dash. To determine the price, simply omit the "U0" and insert a decimal point. Therefore, the price for the above example is \$25.00 EA.

Here are a couple of additional examples for clarity:

C02250-U02500 EA translates to \$25.00 each

We hope this guide aids you in navigating our catalogue effectively.
