Carmel Ceramica

Inspired by the Beauty of the Central California Coastline

The belief that our dogs and cats are family members too was the motivation that started Carmel Ceramica. Elece wanted to follow her passion for designing in ceramics to find a one-of-a-kind look for pet treat jars with matching bowls. The concept was to create items that are functional, enhance home décor and make wonderful gifts for friends and family.

For the last ten years, Carmel Ceramica has focused on creating beautiful and artistic collections of dinnerware, serveware and home decor products manufactured in Portugal.

Foresta Dinnerware

Carmel is located on the central California coast, an area lush with pine, oak, spruce and fir. Our Foresta pinecone pattern celebrates the joy we receive from trees and forests everywhere. The softly sponged, custom white glaze adds a luminescent quality while the raised pinecones and needles give depth to the Foresta design.

Foresta offers casual but elegant dinnerware and serveware that can be used every day or on special occasions. Durable stoneware is dishwasher and microwave safe. Designed in our Carmel studios and manufactured in Portugal.

Oliveira Stainless Steel Serving Pieces

Stainless steel is a superb metal in which to design a variety of serving pieces and has a beauty all its own. Oliveira stainless steel offers a lovely complement to our stoneware and has a hammered texture that captures the light at many angles. This effect creates a soft, warm, handmade look and feel.

We incorporate the olive branch and olive motif into the design to show the universal symbol of peace, ideal for gift giving. The trays have rubber feet on the bottom to prevent scratching. Hand wash recommended. Made in India.
