What are Boogie Toes® ?

Boogie Toes are not just the cutest, bestselling socks out there!

They accompany parents and infants during 3 early stages of development. Babies love to have them on! Their animal buddy goes wherever they go. When mom is busy, newborns are charmed by the rattling noise of a toy that won't drop. While they explore their sense of discovery, they are stimulating their senses and developing hand-eye coordination trying to grab their boogie friend. Once they start crawling, moms can relax while listening to their babies crawl around the house.

The sock's sole has an anti-slip that really works, made from eco-friendly silica gel, once the baby begins walking... and running! The base sock is completely cushioned. The neck has a soft-stretch design that's easy on the baby's legs. The baby-safe quality, design, and cuteness surpass any other rattle socks out there.

With more than 100 styles, there is always something fun and adorable for our little angels!
